- A tax saving method to minimize capitals gains is to gift stocks with capital gains or use a Brokerage Charitable Fund or RMD. This could boost your gift from 10-25% depending on your tax bracket. Gift stocks to Wells Fargo Brokerage account: 2443-6825

For example: If you have stock you bought for \$20 several years ago and now it is worth \$50. If you sell it, you will be subject to capital gains tax on the appreciation of \$30. If you are in the 25% tax bracket, the stock cash value to you will be \$43, losing ~\$7 in taxes. But if you donated this to Nest, Nest would net the \$50 vs \$43 value and if you itemize on your tax returns you could potentially deduct \$50 from your taxes.

**ANY DONATION OVER \$250 WILL BE ISSUED A TAX-DEDUCTIBLE
RECEIPT IN JANUARY, 2021**
